

FOR IMMEDIATE RELEASE

**Data Agility Group Joins Plano Chamber of Commerce Chairman's Council, Provides Companies with Specialized Relocation Service**

*Data Agility Group (DAG), a company specializing in data migration services, has joined the Plano, Texas Chamber of Commerce Chairman's Council. Plano is home to a booming business climate that has attracted many high-profile companies such as Liberty Mutual and Toyota. DAG will serve as a resource for companies moving to the dynamically growing region, providing assistance in relocating data centers and migrating data.*

Plano, Texas-September 1, 2015-Data Agility Group (DAG), a company that provides data migration services, has joined the Plano, Texas Chamber of Commerce Chairman's Council. Comprised of more than 80 businesses, the Chairman's Council members are recognized as leaders within the local business community. Company officers Andy Abbas and Stoney Gwitira were recognized and awarded membership plaques during the most recent Chairman's Council Breakfast.

Data Agility Group plays a crucial role in helping companies during the process of relocation. Much thought and planning is typically invested into the logistics of moving people and hard assets when a company relocates. But during any relocation, moving a company's most precious resource, its data, is the most delicate aspect of a move - *and* the riskiest. DAG provides the specialized expertise necessary to assure the safe migration of companies' data during the process of relocation.

Andy Abbas, DAG's VP of Technical Services explained that DAG's goal is to serve as a reliable resource for the many companies making the move to the Plano area. "When a company relocates, moving all of their data is often a frightening proposition for them," Abbas said. "But our company focuses exclusively on offering data migration services. That gives us the expertise and specialized experience that's so critical in successfully managing data migrations."

Stoney Gwitira, DAG's VP of Information Technology, has traveled the world in helping companies manage the complicated process of migrating data. He noted that DAG's experience uniquely qualified them for providing a helping hand to companies moving to the Plano area. "We've moved data for Fortune 500 companies, some of the largest companies in the world," Gwitira said. "We've moved data state-to-state, nation-to-nation, and continent-to-continent. So we're confident in our ability to help any company - no matter the technology they use - moving from any region in the world."

For companies moving to the Plano, Texas area, there are plenty of resources available to help assure that their people and their hard assets arrive in town safe and sound. New Plano COC member Data Agility Group has the job of assuring that the companies' data also arrives in town safe and sound.
