## **Wouldn't it be Luxurious to Have a Larger Shower?**

Well, you can have one!

And no, you don't have to endure the headaches, messes, and expenses of ripping out your tub and replacing it.

Just try one of our curved shower rods.

This ingenious, yet simple addition to your bathroom will have the effect of extending your shower outward 6" at the center. It also pulls the curtain inward 3" at the ends, eliminating any gap between the ends of the curtain and the walls.

Just think, no more clingy encounters with a clammy shower curtain every time you turn in the shower. No more stepping out of the shower right into the puddle of water that your curtain let escape.

Fits all standard-installation 5' tubs, or can be trimmed during installation to fit shorter lengths. Fully compatible with all standard shower curtains.
