

Headline: **Mobile BI: Analytics Anywhere. Anytime. Any Device.**

Subhead: *Business intelligence at your fingertips, no matter where in the world you happen to be.*

The astounding evolution of business intelligence tools has given decision-makers the ability to make faster, smarter decisions. More than ever, executives rely upon the decision support and analytic insights offered by BI tools.

But not all decisions are made in the office between the hours of 9 and 5. Sometimes critical decisions must be made from a bedside nightstand during the wee hours of the morning. Or during a business trip, half a world away from home. Or while stuck in rush-hour traffic.

Business happens 24-7, worldwide. So should business intelligence.

Subhead: **SAP Mobility Solutions Makes BI Available Anytime, Anywhere**

SAP Mobility Solutions offers your decision-makers the confidence and security of knowing they'll have the information they depend upon at any time, and at any place.

SAP Mobility provides you with the ability to:

- Extend your transactional and reporting platforms onto a wide range of mobile devices
- Develop and deploy scalable mobile applications
- Deliver live, actionable insights for real-time decision-making
- Control and manage the devices that have access to your data
- Ensure the security of sensitive information
- Enhance enterprise-wide workforce productivity

Our experience with SAP Mobility includes the integration of platforms such as SAP Mobile BI, SAP BusinessObjects Explorer, Sybase Unwired Platform (SUP) and SAP AFARIA. And we can help meld the unprecedented speed and analytical capabilities of SAP HANA with the anytime, anywhere convenience of mobile devices.
